

Phonics Home Learning Cards

Orange Level

Your child is now reading the Orange Level books of our Read Write Inc programme.

Whilst reading this set of books we are practicing **speedy green words** and tricky **red words**. We use word cards to do this in lesson before reading each book. We are aiming to build our fluency and accuracy.

✂ Cut up and use the flashcards to help your child to learn and gain speed at reading each of the **speedy green words** and tricky **red words**.

Speedy Green Words Whilst learning these words, children are encouraged to spot the special friends and use Fred Talk before blending the sounds to say the word. The more frequently they see the words, the quicker they will get at recognising them and the more fluent they will become when reading.

Red Words are the words that are tricky to learn as you cannot sound out every grapheme and so we need to learn to recognise and read these words on sight. It may help to talk about which sound is tricking you e.g in “put” it is the **u** and in “said” the **ai** is not making the expected sound.

👍😊 **Use these handy and portable cards WHENEVER AND WHEREVER you can to boost your child's reading** 🌲🚗🏠
